BIOGRAPHY

Demo Artist is a fictional artist used to demonstrate Raisonne, an open-source catalogue raisonne for on-chain artists. Their works on this demo site are public-domain decorative papers from The Metropolitan Museum of Art, shared under the Open Access (CC0) programme, standing in for artworks.

Every exhibition, award and press item listed here is invented, and every contract address is a placeholder that holds no tokens.

STATEMENT

This is placeholder text for the Raisonne demo. The demo artist is fictional: the name, the statement, the exhibitions and the on-chain records are made up so that a fresh install has something to show.

Replace this with your own statement in your content, or run the importer with your wallets to build the catalogue from what you minted.

EXPERIENCE

Jan 2019 to Present	Studio practice Independent, Lisbon, Portugal Pattern, paste and print, shown as an open catalogue. - Four series - Two installations - One paper made to order
